

Collocation

FAST • FOCUSED • FLEXIBLE

ABOUT WAVECOM SOLUTIONS COLLOCATION SERVICES

Wavecom Solutions Collocation Services is a cost-effective way to establish a network point of presence within the State of Hawaii. The service offers direct connectivity to Wavecom's fiber-optic network spanning all six major Hawaiian islands and is a part of our Network Operations Center (NOC) on the island of Oahu. Technician staffed 24 / 7 / 365, the NOC facility offers state-of-the-art service redundancy, a choice of individual cabinets or suites, on-site remote hands technical support, and the space is built according to uniform environmental and security standards.

BENEFITS OF WAVECOM COLLOCATION

SECURITY

We recognize that your network is a valuable part of your business. To best safeguard your investment and your equipment, Wavecom Solutions offers a temperature-controlled, power-protected environment secured by key card access. Your cabinet is accessible only by you, 24 / 7 / 365.

COST SAVINGS

By collocating in Wavecom's facilities, you save the thousands of dollars on overhead and capital expenditures that are associated with building out your own space.

ACCESS

Wavecom Solutions is sensitive to the ever-changing needs of business, which is why every collocation customer has access to the full suite of Wavecom Solutions services; services that evolve as business needs evolve.

WHO WE ARE

Wavecom Solutions offers state of the art communications services to enterprise clients, local and international carriers, and residential customers. We leverage our robust inter-island fiber optic network to deliver services that are flexible and easily customized to provide you a premium end to end customer experience.
