

WaveFlex Enterprise

As the global economy gains momentum and as enterprise growth resumes, many IT decision makers are refreshing and expanding their infrastructure. In many cases, upgrades, and server and storage replacement are behind schedule.

Capacity, performance, and reliability are issues. So too are security, compliance and disaster recovery planning. IT staffs are often stretched thin.

Cloud Services Simplified

WaveFlex Enterprise is Wavecom Solutions's cloud-based private, dedicated virtual infrastructure service. We reduce the cost-risk to upgrade and expand server and storage capacity and capability. Our service and price models are industry leading.

Using WaveFlex Enterprise's fully-automated self-service portal, you will experience a simple, consistent, repeatable deployment; and you will receive comprehensive support. Whether you require additional servers, or more Terabytes of storage, you can simply go on-line and turn-up whichever

Features

Customer Experience

- Flexibility—choose an optimized base virtual infrastructure that can be easily replicated anywhere to scale your development needs
- Elastic—scale up or down, on-demand, for additional compute and storage resources as you need them—in minutes
- Secure—private dedicated infrastructure
- Survivable—redundancy blocks built to your requirements
- Simple and predictable price schedule with no hidden add-on services or fees
- Wavecom Solutions professional virtual services can assist you with your customized solution requirements
- 24 x 7 x 365 customer support

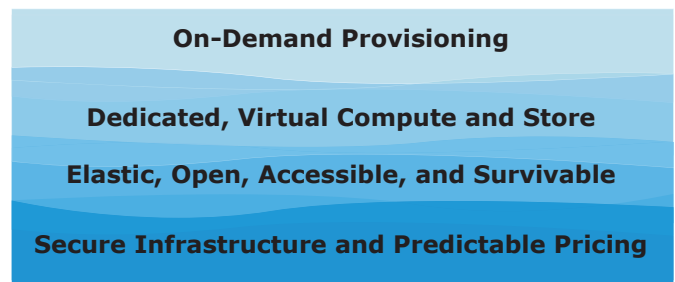

Can Enterprises afford to tackle all of these items?

With WaveFlex Enterprise, you can. And we make it easy for you and your staff. WaveFlex Enterprise provides the flexibility, security and availability you need without the risk and expense of growing and maintaining your own IT infrastructure – allowing you to focus on delivering solutions that are core to your business.

service you require. In minutes. And you only pay for what you use.

WaveFlex Enterprise is an affordable, on-demand, pay-as-you-grow model—with no month-end pricing surprises. WaveFlex Enterprise requires no upfront hardware investment, and it provides upgrades and maintenance at no additional cost. In short, it scales easily and offers predictable pricing.

WaveFlex Enterprise Virtualization

WaveFlex Enterprise Advantage
